

# Thank you for Downloading 8 Simple Reasons to Choose SAP Business ByDesign.

SAP Business ByDesign	
What's the difference?	
Eight Simple Reasons to Choose SAP Business ByDesign	
SAP Business ByDesign	Other Cloud ERP Vendors:
 One solution, born in the cloud, and built from the ground up to connect your whole company.	A disconnected patchwork of parts and add-ons.
 Clear, simple pricing for your entire contract.	Deep initial discounts followed by spendy surprises.
 High-touch implementation with SAP partners + SAP experts.	Hasty off approaches without any vendor involvement.
 Pre-built processes right out of the box.	You're on your own to figure out what works best.
 Embedded analytics throughout the entire solution delivered right out of the box.	A few dashboards built on after the fact.
 24/7 one-on-one support without an outrageous price.	Up to 37% cost hikes to speak to a real person.
 New features, without new fees, four times a year.	To get what's new requires adding modules that only add costs.
 Scalability from 20-10,000 users and expand around the world without a new contract.	Capacity constraints and re-implementation when you need to grow.
